## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-~~40~~, drawn to a method of comparing sequences to a model and medium therefor, classified in class 703, subclass 2.
- II. Claims 41-54, drawn to a method of determining if a sequence matches a sequential pattern, classified in class 382, subclass 181.
- III. Claims 55-64, drawn to a method of identifying sets that exceed a threshold, classified in class 702, subclass 19.
- IV. Claims 65-71, drawn to a method of identifying a selected candidate sequence and an article of machine readable media therefor, classified in class 702, subclass 19.

The inventions are distinct, each from the other because of the following reasons: It is noted that none of the claims recites the intended goal of the method in the preamble and merely list steps (e.g. Claim 1 is directed to a “method comprising specifying...and comparing...”). As such, the examiner has grouped the claims based on what appears to be the intended goal. Each of the methods can be shown to be distinct, each from the other, as the required steps and intended goals differ substantially.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the requirement for a non-coextensive search, particularly in the non-patent literature, restriction for examination purposes as indicated is proper.

Art Unit: 1631

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marianne P. Allen whose telephone number is 703-308-0666. The examiner can normally be reached on Monday-Friday, 8:30 am - 2:30 pm.
